Julio Iglesias is one of the most influential and best-selling artists in the history with more than 300 million albums sold. Half a century of meaningful and truly ingenious creativity covering 5 continents and 12 different languages, have consolidated Julio's position as the most successful Latin artist ever, placing him amongst the five most successful music artists of all time in terms of record sales!

At the beginning of his career, Julio easily won the song Olympus of his homeland, and soon moved on, conquering countries and continents.
